

## Table of contents

*In order of presentation*

<b>Utility approach towards achieving reliable &amp; consistent transformer dynamic ratings via thermal modelling .....</b>	<b>01</b>
Gary Russell	
<b>Drying process using dielectric response analysis .....</b>	<b>13</b>
Stephanie Raetzke, Maik Koch, Martin Anghuber	
<b>High failure rate of 110 kV transformers .....</b>	<b>25</b>
Claude Kane, K. Gopinath, M. Chandron	
<b>Low maintenance power transformers .....</b>	<b>37</b>
Harald Fink, presented by Michael O'Brien	
<b>A fault finding exercise on a 66kV oil filled cable using a unique gas Detection system .....</b>	<b>47</b>
Alan Tancin, Ross Polvere	
<b>Phenomena of Copper Sulphide deposition .....</b>	<b>65</b>
Jelena Lukic	
<b>Application of radio frequency detectors for personal protection in HV substations .....</b>	<b>79</b>
Jose Lopez-Roldan	
<b>In-service condition assessment of large power transformers .....</b>	<b>89</b>
Walter Ferguson	
<b>On-line dewpoint measurement of SF6 gas-filled equipment .....</b>	<b>101</b>
Senja Leivo	

<b>Innovative design techniques optimise power measurement accuracy .....</b>	<b>111</b>
Scott Miller	
<b>Moisture related phenomena in transformers and reactors .....</b>	<b>123</b>
Valery Davydov	
<b>Understanding dissolved gas analysis of ester fluids Part II .....</b>	<b>137</b>
Dave Hanson	
<b>Management of prematurely failing 66kV current transformers .....</b>	<b>149</b>
Todd Mathews & Kim Dawson	
<b>Risk mitigating strategies of transformer fires.....</b>	<b>175</b>
Gilbert Gordon	
<b>Partial discharge measurement using UHF and acoustic techniques .....</b>	<b>187</b>
Stefan M. Hoek	
<b>Retrofitting of a vacuum diverter switch .....</b>	<b>199</b>
John Daley	
<b>State of the art asset condition monitoring systems with IEC 61850 .....</b>	<b>207</b>
Rod Hughes	
<b>Development methodology for power transformer health and Replacement indices.....</b>	<b>221</b>
Amra Alibegovic-Memisevic	
<b>Transformers behaving badly .....</b>	<b>231</b>
Chris Odendaal
