

TechCon[®] **20** YEARS
Aus-NZ **19**

4-5 APRIL 2019
SYDNEY, AUSTRALIA

CALL FOR PAPERS

We are delighted to announce a call for papers for our 20th anniversary conference on the theme of:

“Life-management of HV and MV power equipment”

TechCon[®] Aus-NZ 2019 showcases great research and real-life case studies on life-management of high voltage and medium voltage power equipment strategies for the ageing electrical grid infrastructure. The objectives of the conference are to promote high quality papers in the field and is a great opportunity for networking.

We are seeking a range of engineering papers that can explore emerging technologies in transformers, transformer maintenance & testing, the evolving skill sets needed to manage networks and condition data for the future, substation asset challenges and issues associated with renewables, how are emerging technologies helping mitigate bushfires and the risks.

We are looking for a mix of the past, present and future to ensure our industry can learn from the past and prepare for the future in what is now a very dynamically evolving power industry.

Call for papers is now open with a deadline of September 30, 2018

Submission Guidelines: If you would like to present a paper at TechCon[®] Aus-NZ 2019, please submit your abstract to techcon@wtc.com.au

- Title & Abstract (one paragraph)
- Short Biography (one paragraph)
- High Resolution Headshot

You will be notified via email if your abstract has been selected for presentation.

Selected papers will be required to submit the following additional items:

- Technical Paper
- PowerPoint Presentation

Selection Process: All abstracts are reviewed on the basis of applicability, originality, conference needs and speaker qualifications. All submissions will receive a peer-review by the TechCon[®] Aus-NZ Review Committee.
